V-BOX shower mixer with diverter

Quiet operation.

Water piping elements are located inside the housing, so that the sound of flowing water is suppressed.

Protection against moisture.

Brass items have limited contact with the wall, thanks to housing which protects walls from moisture.

Connections.

- Shower Valve 3 x G 1/2
- Bath/Shower Valve 2 x G 1/2, - 1 x G ¾

Assembly.

Universal mounting allows for stable mounting of V-BOX inside the wall.

Universal application.

V-BOX is a functional element of the concealed part, to which you can freely adjust the external part of the shower.

Adjusting to the wall.

Through proper cutting of the housing's flange, the mounting depth of **V-BOX** kit can be adjusted in the wall.

V-BOX shower mixer

ASSEMBLY **V-BOX**

1

Leveling of the concealed part.

2

Installation of piping to the concealed part.

3

Plaster and ceramic tiles assembly.

4

Installation of external components.
